

# And There Will Your Heart Be Also

## Fields of the Nephilim

We must suffer to free our pain  
Can you help us to find our way?  
You're here to stay, stay here in paradise  
I'd end this moment to be with you Through morphic oceans  
I'd lay here with you only to stay, stay here in paradise  
Only to stay, son, lonely from this maelstrom  
Free are you from this maelstrom to be with you
