

# The Torture Throne

[Cancerslug](#)

i will sit here on this torture throne  
all my love  
all my hate  
all alone  
and i will sit here with these hells ive shown  
all my life  
all my death  
all my own  
so many people spend their hate on me  
wastes of time  
beyond the veil are things they just cant see  
but i dont mind  
so i will sit here on this torture throne  
all my love  
all my hate  
all alone  
and i will sit here with these hells ive shown  
all my life  
all my death  
all my own  
so many people spend their hate on me  
wastes of life  
beyond the veil are things they just cant see  
but i dont mind  
we all will die
