

Goodbye Sky Harbor

Jimmy Eat World

Is tomorrow just a day like all the rest
How could you know just what you did?
Like all the rest, how could you know just what you did?
So full of faith yet full of doubt I ask
Again, I shall ask you this once again
He said, "I am but one small instrument"
Do you remember that?
Time and time again you say
Don't be afraid, don't be afraid
The only voice I want to hear is yours
Again, I shall ask you this once again
He said, "I am but one small instrument"
Do you remember that?
