First Steps

Hadise

Tell me I?m not dreaming did you see him
I?m going to marry that man
Build a little house and a little garden
See our babies running around

I wasn?t looking for love but then again
I?ve been single long enough
When I saw you my heart jumped out
You really stood out from the crowd

Sometimes it happens
Love at first side
We can make it happen tonight
First steps are slow
In your mind you?ll never know
But your heart says just go
In love you?ll risk it all

I feel a little uneasy
I know my eyes are a give away
Boy don?t tease me
Look at me don?t look away

Sometimes it happens
Love at first side
We can make it happen tonight
First steps are slow
In your mind you?ll never know
But your heart says just go
In love you?ll risk it all

Tell me I?m not dreaming did you see him
I?m going to marry that man
Build a little house and a little garden
See our babies running around..
