Ordinary Life

Samiam

She's always restless, she's over-medicated
With the kind of emotion that feels out of place
Never give your opinion, they've got all the answers
Follow the leader but remember where you've beenSo don't leave, it's not me you know
Can't control what goes through my mind
So stay, please understand, I don't mean all I said tonightHaven't slept for days and my words
Don't seem to come out right
It's just a phase that you're gonna grow out of
When you die and it's alright
You know, everything's going to be just fine
Is it too much to ask for, some kind of ordinary life?Two weeks, clean a vague reality
From a life time clouded, lost details of your dreams
The words you eat, the pills you need to sleep
Are things you never think if till they're always on your mindSo don't leave, it's not me you know
Can't control what goes through my mind
So stay, please understand, I don't mean all I said tonightHaven't slept for days and my words
Don't seem to come out right
It's just a phase that you're gonna grow out of
When you die and it's alright
You know everything's going to be just fine
Is it too much to ask for some kind of ordinary life?Don't leave, it's not me you know
Can't control what goes through my mind
So stay please understand, I don't mean all I said tonight.Haven't slept for days and my words
Don't seem to come out right
It's just a phase that you're gonna grow out of
When you die and its alrightYou know everything's going to be just fine
Is it too much to ask for some kind of ordinary life?
Is it too much to ask for, some kind of ordinary life?
