

# I Know You Tried

Luna

I went to your street  
At seven in the mornin'  
And while you were asleep  
I read your newspaper I saw you out walkin'  
Out walkin' with your father  
Pretendin' not to see me  
Pretendin' to be a family I know you tried, baby  
I know you tried  
I know you tried to go on Saw a metal object  
Lyin' in the street  
And when we turned away  
It stood itself up You circled the island  
In a Chevy caprice  
You stuck out your tongue  
And your nose began to bleed I know you tried, baby  
I know you tried  
I know you tried to go on I know you tried, baby  
I know you tried  
I know you tried to go on
