# It Rings so True

## [Engineers](#)

Never mind what I could find
You wouldn't be amused
Let's devise a compromise
and never be refused
I fear I know that something grows
while we are away
Live a life with no more strife
and never see the day
It rings so true
You'll never see me
I'll never meet you
Known for lies you memorised
I don't believe a word
Never be what you could be
and never walk alone
Play guitar, it's what you are
don't ever see a goal
It's what you want, the party's gone
Into a mist of days
