

Afterglow (of Your Love)

Quiet Riot

Love

Love is all around me everywhere

Love has come to touch my soul

With someone who really caresNo one can deny us

People who once passed me by

Just turn their heads 'roundI'm happy just to be with you

And lovin' you the way I do

'Cause everything I need to know

Just resting in the afterglow of your loveYou have always been

A feeling deep inside

A feeling that I could not see or touch or try to hideMy love is deep and around you

I bless the day that I found you

So listen babyI'm happy just to be with you

And lovin' you the way I do

'Cause everything I need to know

Just resting in the afterglow of your loveLove is like a voice in my head

Keeps turning 'round the things that I'm sayingI'm happy just to be with you

And lovin' you the way I do

'Cause everything I need to know

Just resting in the afterglow of your loveI'm happy just to be with you

And lovin' you the way I do

'Cause everything I need to know

Just resting in the afterglow of your loveI'm happy just to be with you

And lovin' you the way I do

'Cause everything I need to know

Just resting in the afterglow of your love
