The New Clear

God Forbid

It's all a dream
A spider's web
You're a number
Symbiosis
Symbiosis
The rhythm contorts
Stretches
Manipulates
It waits for an answer that never existed
Never existed
Never existed
Never existed
Never existed
We dream in blood and circuits
We dream in blood and circuitsFind me because I'm there
Find me because I'm thereYou are all the abstract
You are nothing
Both the sameYou are the new clear
You are the essence of our earth
And now I summon your spirit
Please God
I cherish my lifeOur dreams are the only thing we have when things are down
Your courage to show the fool the world will clear the pathFind me because I'm there
Find me because I'm thereYou are the new clear
You are the essence of our earth
And now I summon your spirit
Please God
I cherish my lifeYou're a clone of disaster
The edge of chaos
The beginning of life
The end of death
Pleased to meet you
My name is soul
Repeat after me
My name is soul
Soul
In dark spaces unknown to man
A mystical power lies within your handFind me because I'm there
YeahThe paradox is heaven in our bones

The victors' book is lostSolo: DocThe paradox is heaven in our bones
The victors' book is...Find me because I'm there
Yeah
Find me because I'm there
Yeah
