Let's Stay Together

Pulp Fiction-Al Green

So we, we talked about this goodbye thing, man
And Def, I mean but I just thought man
We had so much history together
She was, she was with me when I was in the joint
You know what I am sayin'? Writin' me back and forth

You know sendin' me little things that kept
You know, me mentally and spiritually
So man, we just, we just like forget all of that, man
When you come too far, let's stay together
