

Just Like We Do (Live At the Troubadour)

Eisley

Dear did you know that people love each other
Just like we do
Just like they do Dear did you know you're all I asked for
So hold on to me
Hold on with me here And there are things that follow us
Quietly to the past
We've seen all those faces
We won't go looking for trouble The rain, it tumbled down through the cracks
in the sky
Which made your hands grow
Watch your hands grow
