Drinkin' Thinkin'

George Canyon

See that girl over there? Everyone thinks she's hot
And after a few, your thinkin that you've got a shot
Well maybe you do, maybe you dont
But if you strike out there, there hauss
And start telling yourself its her loseChorus:
Thats just drinkin thinkin, liquor logic in a can
your brian cells party, and your body believes your supperman
thats just drinking thinkin
And here's where the trouble starts
The more you drink, the better you think you areFrom this stage, and these lights
I see this stuff every night
A guy with a tie will challenge a biker to a fight
Or the kareoke king who gets up to sing
An oldie and hears the applause
And beleives he can quit his day jobRepeat ChorusSOLO: your getting better all the timeThats just drinkin thinkin, liquor logic in a can
Your brain cells party, and your body believes your superman
Thats just drinkin thinkin
And here's where the trouble starts
The more you think, the better you drink you are
Ah The bigger and badder ,smarter and better looking you think you are
You better switch to coffee
