

# Uncertain Weather

## Youn Sun Nah

Uncertain weather comes  
The cold wind blows  
Sudden hail storm on falls  
All the stars fade away  
Heavy clouds were away  
From spring through to winter  
Why can't I trust that tomorrow's  
Gonna bring the sunshine  
Do I have to buried myself  
Bright yellow sunMy fickle doggy barks  
I heard a bird truly cries  
And the tears blur my eyes  
I miss your any kiss shadows  
Dancing in the sunlight
