Bright Idea

Infinito 2017

I woke up to a lightbulb; every little thing is possible;
I woke up to a feeling; every little thing has meaning;
Now I'm gonna use my two hands; I'm gonna move a mountain;
I woke up to a lightbulb on; every little thing is possible now:
Love is a bright idea; Love is a brilliant plan;
I built my life around a bright idea;
I built my life around the love that I've found.
I woke up to a new day; every little thing gonna go my way
I woke up to a perfect thought; Every little thing in a perfect spot

Now I 'm gonna use my own voice; I'm gonna sing the song of my choice
I woke up to a lightbulb on; everything is possible now:
Love is a bright idea; Love is a brilliant plan;
I built my life around a bright idea;
I built my life around the love that I've found.
I'm gonna use my two feet; I'm gonna walk to my own beat
I woke up to a lightbulb on; every little thing is possible, hey!
Love is a bright idea; Love is a brilliant plan;
I built my life around a bright idea (yes I have);
I built my life around the love that I've found.
