

Love or Something

Bob Geldof

Well, it was last night baby when I caught your eye
Ssh don't tell nobody but I almost died
And like a beach bunny sobbing on a shag pile rug
I thought of "Going to a Go, Go" and the family stone frug
We twist and shout then when it's feeling great
She drifts away
(Talk, talk tell me whaddy say)
She walk away
(Walk, walk baby, why don't you stay) But like a cardboard suitcase in the pouring rain
She falls apart on me and then we start again
It must be love or something else
Oh, love or something else Well, I talk with her and then I stay all night
We did everything but it, still it felt alright
She was careful 'bout her health so it didn't hurt
When she started dropping pills in her blue grass skirt
Then she twist and dip and do the flip flop slide
She drifts away
(Talk, talk tell me whaddy say)
She walk away
(Walk, walk baby why don't you stay) Well, trembling like an earthquake, slipping like soap
I don't believe with her I'll ever give up hoping
This is love or something else
It must be love or something else Still I never take for granted that what's new
Am I overstating what at root, seems cute
And more to boot, the point is moot
But up to you, is this love or something else
It's only love or something else Well, I don't believe in love baby if I'm honest with myself
I don't believe it lasts long it's kinda like your health
Hey, everything is spinning round down the laundromat
And love is like your clothes it's only useful while it lasts
Save your soul Dans se monde il n'ya qu'une femme pour chaque homme
Et je pense qu'il n'ya qu'un age pour chaque age
Et ca c'est vraiment vrai So don't you talk
(Talk, talk tell me whaddy say)
Don't you walk
(Walk, walk baby why don't you stay) So don't you talk
(Talk, talk tell me whaddy say)
And walk away
(Walk, walk baby why don't you stay) Don't you talk
(Talk, talk tell me whaddy say)
And walk away

(Walk, walk baby why don't you stay)Is this love
(Talk, talk tell me whaddya say)
Or something else
(Walk, walk baby why don't you stay)Is this love
(Talk, talk tell me whaddya say)
Or something else
(Walk, walk baby why don't you stay)Is this love or something else
Is this love or something else
Is this love or something elseIs this love
Is this love
Is this love
...
