

What Part of Me

Low

What part of me don't you know?
What part of me don't you own?
What part of me don't you know?
What part of me don't you own? Can't you see that I'm bleeding out here?
Waking up from a dreaming out here
It's getting hard to believing out here
It's a hundred degrees out here What part of me don't you know?
What part of me don't you own?
What part of me don't you know?
What part of me don't you own? Sometimes it scares me to death
Sometimes it takes all my breath
Talking, talking and pleading all night
There must be some way to reach the other side
