

# Looking For An Angel

[Laura Pausini](#)

Well, I'm looking for an angel  
Someone to watch over me  
Someone to lean on my shoulder  
I wanna feel how love can be But these things, they don't come easy  
I've learned my lesson well  
Some things don't work the way you planned  
Sometimes you just can't tell So I'm looking for an angel  
Someone to let you know my love for you  
Seems I've never felt this way before  
I never wanted to see just what love can do But these things they, don't come easy  
I've learned my lesson well  
When things don't work the way you planned  
You need someone to tell You are my paradise the source of my desires  
I believe in you so much, I'm longing for your touch  
I need you by my side, so all my dreams will fly  
I can't live this way because I know, I cry alone I fear to cry alone, so what will I do without you?  
Who will I see when I close my eyes?  
I can't face another night alone without you here  
'Cause I can't face the night without you here, alone without you here Sometimes you just can't tell  
You are my paradise the source of my desires  
I believe in you so much, I'm waiting here for you touch  
I need you by my side So with my dreams I can touch the sky  
I can't live this way 'cause, this time I know  
I cry alone, I fear to cry here alone  
So I'm looking for an angel, I'm looking for you
