The Wheel

Kevin M Buck

The Wheel

Twelve signs they show you all the spirals in the sky.
Twelve signs control you and the thoughts inside your mind.

Gemini double side canâ€™t you tell whatâ€™s real?
Gemini look inside.
Canâ€™t you see the wheel?

Twelve Gods controlling us in houses throughout time.
Twelve Gods convincing us the wheel turns all the time.
Gemini double side canâ€™t you tell whatâ€™s real?
Gemini look inside canâ€™t you see the wheel
Canâ€™t you see the wheel?

You wonâ€™t see it!
Donâ€™t lose your hope in Venus.
There will be love soon.
Desolate night departs now,
To the light of the moon.
You donâ€™t need faith in Jesus,
If you donâ€™t think Hellâ€™s real.
The Earths your love and mother
Your shelter inside the wheel.
Twelve sounds that make up all the musick in our lives.
Twelve sounds related to the mysteries of all time.

Gemini devilside canâ€™t you tell whatâ€™s real?
Gemini lost your mind.
Canâ€™t you see the wheel?
