Found Out (DJ Koze Remix)

Caribou

While she waits, she holds her breath
And thinks about the things we saidAnd sings a modern song she knows
But not remembers how it goesAnd everything she says she can fall for
She goes on so no one will knowEverything that she says she can fall for
She knows she'll be there on her ownShe goes on so no one will knowAnd everything she says she can fall for
She goes on so no one will knowAnd everything that she says she can fall for
She knows she'll be there on her ownAnd everything that she says she can fall for
She knows she'll be there on her ownAnd everything she says she can fall for
She goes on so no one will know
