Sing You to Sleep

Dakota Moon

Close the door, close your eyes
Leave the day behind
Until the morning comes you're mine
Safe from the world outsideLet me into you
I'll take you where you need me too
Touch places left unsung
And baby when we're doneI will sing you to sleep
Your soul and your secrets I'll keep
And while the night gently creeps
With you lying next to me
Oh, I'll sing you to sleep
I'll sing you to sleepA simple melody
A simple melody
Caressing your soul tenderly
I want to give to you
What you give to me
Forever, for eternity, yeahAs I lay with you
The dreams I dreamed are coming true
I can never do enough
I've only just begunI will sing you to sleep
Your soul and your secrets I'll keep
And while the night gently creeps
With you lying next to me
Oh, I'll sing you to sleep
I'll sing you to sleep
I'll sing you to sleep, ohLet me into you
I'll take you where you need me too
Touch places left unsung
And when the rest is doneI will sing you to sleep
Your soul and your secrets I'll keep
And while the night gently creeps
With you lying next to me
Yeah, I'llI'll sing you to sleep
I'll sing you to sleep
I'll sing you to sleep
