Infection 13

Dope Stars Inc.

Living another game in these silent years
I got another
What I'm cravin' for is just another kiss

Ah ah ah ah
Fire fire
Burn burn
Death death
Dark dark

Hi tech over the world
Infect all that you want
Sleep all, day party all night
And never grow and never die
You get what you forgot
You get what you forgot
Sleep all, day party all night
And never grow and never die
