Still In Love

Nivea

Still in love
Still in love
Still in love
Still in loveThinkin maybe
Things are gonna turn around
Despite the arguments
We can see eye to eyeOver, over
Keeps playin in my mind
This here aint right for me
Too young to be held downI fall for you
Each time, each time
This aint no sayin
I get stuck
All of the good times
Way down, the bad times
Guess thats why Im still in loveStill in love with you
Despite all we go through
I cant turn awayYou know that Im still in love with you
You know that I cant give up
Im still in love with youGot all, my girls
Tellin me to just let it go
Tellin me that its just love lost
But I know
Got all, my girls
Tellin me I should free my heart
If it was so simple I wouldI fall for you
Each time, each time
This aint no sayin
I get stuck
All of the good times
Way down, the bad times
Guess thats why Im still in loveStill in love with you
Despite all we go through
I cant turn awayYou know that Im still in love with you
You know that I cant give up
Im still in love with youStill in love with ya
Im so in love with ya
Still in love with ya
Im so in love with ya

Still in love with ya
Im so in love with ya
Still in love with yaStill in love with you
Despite all we go through
I cant turn awayYou know that Im still in love with you
You know that I cant give up
Im still in love with youStill in love with you
Despite all we go through
I cant turn awayYou know that Im still in love with you
You know that I cant give up
Im still in love with youStill in love
Still in love
Still in love
