

Stars 4-ever

Robyn

You and me together
Stars forever, stars forever
Stars forever, stars forever You and me on the hood, on my car
Saturday night
Watching the stars
Watching the stars You and I
Shinning lights to what we are
Look at the sky
And I am never far I can be right there next to you
No matter where in the world you are
I got you right here next to me
Forever connected through the stars It's what we are You and me together
Stars forever, stars forever
Stars forever, stars forever The last train's gone
We walk through the night
The moon shines down
Like a spotlight
Like a spotlight You and I
Shinning lights to what we are
Look at the sky
And I am never far I can be right there next to you
No matter where in the world you are
I got you right here next to me
Forever connected through the stars It's what we are You and me together
Stars forever, stars forever
Stars forever, stars forever
(It's what we are) You and me together
Stars forever, stars forever
Stars forever, stars forever I can be right there next to you
I can be right there next to you
Forever connected through the stars
It's what we are You and me together
Stars forever, stars forever
Stars forever, stars forever We're superstars
You and me together
Stars forever, stars forever
Stars forever, stars forever Stars forever
