

I Wanna Make It

Mario Biondi

i wanna make it and make it
for love and for fun
i wanna make it and make it for you
i just can't take the feeling i feel so true and i gather my moods for you, love
i wanna make it and make it
for love and for fun
i wanna make it and make it for you
i just can't take these
feelings i feel so blue
then i get all these moods
from your heart time can't erase how i'm feeling for you so i'll just keep all this joy
from above
i just can't break this
feeling, i feel so new
that i get all my moods from your soul
