

Curiosity

Disaster In The Universe

Don't lose your mind you just got here
Don't paint the ground though your colours' bright
It's kinda hard to see from my window
What to say when its all so quiet Well, I'm just wondering about something that's changing anyway
Tryin' hard to know you, just to grow to, whatever comes of us
Time seems protective, oh when you cover, cover my ears
I'm yearnin' anyway Oh, do I have all these enemies
I didn't know, I can't see from here
Oh, how it suits my curiosity
That every place will ignite somewhere
