

Zion

The Nova Echo

the ruins of an empire tilting in the smoke
the ashes fall like summer rain
the shadow of the past is thin
with dismal thoughts of retribution

this underground passage will lead us beyond
this sacred sound

but wait can you hear the sound
when the stars burn out
and I'll be there with you when the sky falls down

a single flower blooming in the graveyard
of what used to be the only thing that's left
the church bells silent in the wake of this demise
how did it ever come to this

this underground passage will lead us beyond
this sacred sound

but wait can you hear the sound
when the stars burn out
and I'll be there with you when the sky falls down
