I Was In Love With You

The Gutter Twins

I was in love with you
I was in love with youYour distant eyes
Innocence in smile
Hollow refrain
Youre blueI was in love with you
I was in love with youYou say you're mine
Come by my window
The cars parked outside
Where are you?In love, in love
In love all night
You're letting it go, letting it go
Letting it go, letting it goI was in love with you
I was in love with youIt's a ladys choice
Bring on the boys
Cars parked outside
Waiting, waiting
