

Newerwaves

Jimmy Chamberlin Complex

When things are spinning down
And people put you out again
And the darkness sets you up

The world's no place for love it seems
New waves are coming
When despair takes your hand
All you do is worry

The clocks are ticking faster and faster

There no other plan
New waves are coming 'round
Soon a place called yesterday
Will be gone forever
And a new love of today will come
And you will fly
