Into the Death

Atari Teenage Riot

Bang your head
Come on, 1, 2, 3, 4Into the death, into the death, into the death
Into the death, into the death, into the death
Into the death, into the death, into the death
Go, go, go, go, go, go, go, goTerror worldwide, you can't run away you can't hide
I came to get you, get down
Respect and you can't turn back now
Speed is what you need, is what you feel, is what you're livin' for
Let's fucking riot, goAnd welcome to my paradise there's no good reason to keep you alive
Die, die, die my darling, run 'cause you can't hide
There's no escape from where you coming from
We're going to the top where we belong
Life is like a video game with no chance to winInto the death, into the death, into the death
Into the death, into the death, into the death
Into the death, into the death, into the deathInto the death, into the death, into the death
Into the death, into the death, into the death
Into the death, into the death, into the death
Go, go, go, go, go, go, go, goMaybe we sit down and talk about the revolution
And stuff but it doesn't work like that
You can't turn back now there's no way back
You feel the power to destroy your enemyMidi junkies gonna fuck you up, midi junkies gonna fuck you up
Another life wasted another soldier dead this system's guilty
It's true but sad our life is what they control
Soon they gonna take our bodies and soulsInto the death, into the death
Into the death, into the death
Into the death, into the death
Into the death, into the death
Go, go, go, go, go, go, go, go, go, go, go
Into the death
