

# First Time (Acoustic)

## Hawk Nelson

Stepping over two steps closer  
I sit around wasting time, feel like the poster for a  
Self-help line  
Will we know the truth when we're older[Chorus]  
For the first time in my whole life  
I'm not afraid of feeling alive  
For the last time I'm falling behind  
And nothing out there will change my mind  
Let's start over crimson clover  
While these golden nights get colder  
If I could press rewind  
Turn on record and leave the past behind  
Will we know the truth when we're older[Chorus]  
If you find me  
Will you remind me  
We're one step closer  
Two steps closer  
Whoa whoa whoa  
For the first time in my whole life  
I'm not afraid of feeling alive  
For the last time I'm falling behind  
And nothing out there will change me  
For the first time in my whole life  
I'm not afraid of feeling alive  
For the last time I'm falling behind  
And nothing out there will change me[Chorus]
