

Crystal Bullet

Helalyn Flowers

I was living in a little box of remains
Broken up just like you
When it comes the rain
And it's all around my fake awake
All that I ever wanted to play I am frozen like an angel
I can feel all my own
Like a crystal bullet
Trapped inside a weapon full of love I am frozen like an angel
I can feel all my own
Like a crystal bullet
Trapped inside a weapon full of love I was living in a little box of remains
Broken up just like you
When it comes the rain
And it's all about the day I've made
Of my freedom just my own way And I won't cover up my eyes
And I wrap me up of ice
Melt away I am frozen like an angel
I can feel all my own
Like a crystal bullet
Trapped inside a weapon full of love I am frozen like an angel
I can feel all my own
Like a crystal bullet
Trapped inside a weapon full of love
