

# Lake Michigan

## Armonia

Heaven is a switchboard that you want to fight  
she would even miss you if you taught her sight

power politician leaning to the right

baby's got a trust fund

that she'll want to go off like that

get off of my stack

leave a little window

get off of my stack

Now we wear same-colored yellow uniforms

sky is burning

but at least we're warm

go and run yourself a million miles

hoping that the colors run out

and you go off like that

get off of my stack

leave a little window

get off of my stack

You can never see yourself

ringing all around it

No one is on lake michigan

you labored on, lake michigan

Not another payoff

get off of my stack

leave a little window

get off of my stack

you know it won't do

get off of my stack
