

People

Joan Armatrading

People to the left of me, people to the right
I wanna be alone
But it just gets worse all the time
Can't make it workPeople all around me in love and pain
Some are integrated, drivin' me insane
They're gonna drive me right out of my headScheming, there's people cheatin'
Pressure from all sides
Chain you, they'll try to change you
There's no escaping peoplePeople, peoplePeopleStanding right in front of me, movin' up behind
Ringin' on my phone
I got no place to hide
Nowhere to goPeople all around me singing out of tune
Draw me, [Incomprehensible]
Oh, leave me alone
I gotta find somewhere else I can goOnce I wanted loving, somebody of my own
That's all changed
Love somebody of my own
That's all changedPeople all around me, in love and pain
Some are integrated, drivin' me insane
They're gonna drive me right out of my headPeople, people, people
People, people, people
