Lady, Lady

Luther Vandross

They may say that we're the best thing that could be
They say it to you and they say it to me
But to each other they're insistin', something must be missin'
Things can't really be the way they seem to be
They don't know love the way we do
They've never loved someone like you
Lady, lady, I never let them talk about you
Lady, lady, 'cause you're mine
Lady, lady, I jump up when they talk about you
But so what? I'm gonna be your guy
You can never win once that stuff begins
'Cause when it starts, its just never ends
People start rumors about you, say those things about you
But I won't ever doubt you, you're my best friend
Let them be how they wanna be
They can't stop you from loving me
Lady, lady, I never let them talk about you
Lady, lady, 'cause you're mine
Lady, lady, I jump up when they talk about you
But so what? I'm gonna be your guy
So you see, I don't care what they say
I don't care what they do
I'm the one who loves you
I'm the one you need, I'm the one
A symphony plays when you are near
And I love the music that I hear
Lady, lady, I never let them talk about you
Lady, lady, 'cause you're mine
Lady, lady, I jump up when they talk about you
But so what? I'm gonna be your guy
