

# An Apple a Day

## Aqua

You know an apple a day, won't keep the doctor away  
Welcome to the cliches, welcome to the part

Where we wanna finish what we can't start

Come and get me

Just don't miss the water until the well is dry

You gotta learn walking after you can fly

Come and get me  
What goes in, will get out

What goes up, comes right down

We go up, we go up, we go up  
You know an apple a day, won't keep the doctor away

We're never taught what we teach and won't practice what we preach

You know an apple a day, won't keep my troubles away

Once bitten bye, bye all the cliches is here to die  
Just eat all the people on your way up

'Cause they will eat your heart out on your way down

Come and get me

Start what you can't finish  
stick to what you can't

Life is here to help us get things out of hand

Come and get us  
What goes in, will get out

What goes up, comes right down

We go up, we go up, we go up  
You know an apple a day, won't keep the doctor away

We're never taught what we teach and won't practice what we preach

You know an apple a day, won't keep my troubles away

Once bitten bye, bye all the cliches is here to die  
'Cause you are what you're eating

Don't stick to what's true

You are what you're eating

Let it come as it came

We are what we are, what's build up will fall

Do what you want and be happy, be happy, be happy  
You know an apple a day, won't keep the doctor away

We're never taught what we teach and won't practice what we preach

You know an apple a day, won't keep my troubles away

Once bitten bye, bye all the cliches is here to die  
'Cause you are what you're eating

Don't stick to what's true

You are what you're eating

Let it come as it came

We are what we are, what's build up will fall

Do what you want and be happy
