Formula One

Primal Fear

Acceleration, my body's pressed into the seat
Fascination, pipes are glowing in the heatAm I the fastest one, can I improve?
Making a late run, I still got the groove
Pole position, I'm on the top, prepared to win
Rising tension, the lights are set, the start beginsSmoking wheels, I'm getting faster, take the lead
Shifting gears, the engines pushed up to top speedFormula One, the class of kings on highest level
Formula One, come to see me winWheels are spinning on slicks, I have the perfect grip
Feel like winning, the fastest lap is now complete
I am the fastest one, taking this race
I'm overtaking, setting the paceFeel the street, I take the curves, I love to slice
Beat my beat, I'll finish first and take the priceFormula One, the class of kings on highest level
Formula One, come to see me win
Formula One will get into your blood forever
Formula One, let the show beginElated at victory, I stand on the podium
The audience is roaring, they reach out for me
Showers of champagne are running down my neck
In honor of my country, they play the nation's songAcceleration, my body's pressed into the seat
Fascination, pipes are glowing in the heatFormula One, the class of kings on highest level
Formula One, come to see me win
Formula One will get into your blood forever
Formula One, let the show begin
