On That Natural High

Bizzy Bone

[Intro:]
Yeah Capone, we Back at it again,
Shoutouts Bone Thugs N Harmony, wassup young Layzie Bone, young Krayzie Bone young Wish Bone,
Congratulations Flesh N Bone for finally geting up out of jail I am Bizzy Bone the Kid, young Glory Fend in full affect after the assention
Yes indeed no tension, and just remember never forget to mention
God first uh, Come on, come on[Verse 1:]
Yeah, I say my preachy flow like cream stackery umbrella
Holly water to shower my skeletons and gather my Bones together
Let the world wind swirl inside of my vessel, have no association with the devil
Nah nigga, heaven is on my level, you never speak to the savior
Casting them down quietly, pick me against the irony
Television with wings, be gang bangin the spirit
Leave me the fuck alone I've been cool since Jesus feel us[Chorus:]
Take a breath n breeth it, that's what I do when I'm on that oxygen
Take a breath n breeth it, it's just like heaven it puts me on a natural high
Take a breath n breeth it, just take a breath n you will touch the sky
Take a breath n breeth it, you know that oxygen puts me on a cloud[Verse 2:]
I'm smoother then Omarion, strong soulhjah like Gibson
Belly dancin like gypsys carrying on a mission, tipsy upon this oxygen
Snortin the toxin given, focusin on the molecules, no focus on vixen
Crack money my recipe Kentucky fried chicken
Lifted up with wings of Angels with no predictions, I'm posted up like missing dogs
Barkin towards expedition, Father Jesus keep on servin them uh, and I won't listen
It's like revalations they took us to the begining
And even if we loose we still winning, watch out cause Judece isn't
And time is so forgiving but some of us over did it
Goodfellas we hoodfellas you know I'm on this mission, holla back[Chorus:]
Take a breath n breeth it, that's what I do when I'm on that oxygen
Take a breath n breeth it, it's just like heaven it puts me on a natural high
Take a breath n breeth it, just take a breath n you will touch the sky
Take a breath n breeth it, you know that oxygen puts me on a cloud[Verse 3:]
All lions need a lion n god don't need a thing
I sing to the most masterfull, we slaves not kings
And I bring fire from the heaven if I could not ming, I'm like a shadow
U can lighten me to tend so many beings
I said send me 12 thousand, and ruben the same thing, Benjamen get to sayin
We just gon take the shame, slain lambs on credus
Like pigs with no breakfast, kids with no destiny

Loyal to christ excellent mathematics and excellence[Chorus:]
Take a breath n breeth it, that's what I do when I'm on that oxygen
Take a breath n breeth it, it's just like heaven it puts me on a natural high
Take a breath n breeth it, just take a breath n you will touch the sky
Take a breath n breeth it, you know that oxygen puts me on a cloud
