

In the Meanwhile

Jodeci

Sticky, sticky, let's get sticky, word
Yeah, I like it in the mirror
Can you pose in the mirror, baby? Get sticky I don't have to be the only one
But we can still have fun 'til the risin' sun
As long as you're with me
Baby, don't diss me an' we can get busy I know you have a lot to do
But can I get a second or two?
So when you get with me
I spin you around an' we can get busy You know I'm down to make you smile
So I'll be around in the meanwhile
You know I'm down to make you smile
So I'll be around in the meanwhile You know I'm down to make you smile
So I'll be around in the meanwhile
You know I'm down to make you smile
So I'll be around in the meanwhile How you want it? Sticky
How you like it? Sticky
How you love it? Sticky
How you need it? Sticky How you want it? Sticky
How you like it? Sticky
How you love it? Sticky
How you need it? Sticky You say you wanna do a lot of things
So check the joy I bring, baby, you can hang
If you wanna feel sexy
Baby, just call me an' we can get nasty Come outcha' clothes an' play for awhile
Come to my crib an' check my style
So baby, let me pour you found
In the meanwhile, in the meanwhile You know I'm down to make you smile
So I'll be around in the meanwhile
You know I'm down to make you smile
So I'll be around in the meanwhile You know I'm down to make you smile
So I'll be around in the meanwhile
You know I'm down to make you smile
So I'll be around in the meanwhile Yo, DeVante
Yo, what?
This girl tried to get sticky with me, wear it out
An' guess what I told her? What's that? Timbaland I can rock a party like Liberace
I can catch a groupie [Incomprehensible] the hotties
Take her out an' get sticky right in the lobby
Then get my crew an' run a Swing Mobbie We like Norman, our skills are the beats

People can't wait to get a dub of our tapes
On a hundred an' twenty-fifth, catch a whiff
K-Ci, my man, won'tcha' hit a riff?
An' show the sticky girls with the ether
Rub her down, lick her thighs, now we passed her
All night long, keep you smilin'
All night long, get buck wildin'
All night long, make it sticky
All night long, we're not naked
Feels so, feels so
Feels so, feels so damn
Feels so, feels so
Feels so, feels so damn
Feels so, feels so
(How you want it, how you want it)
Feels so, feels so damn
(How you want it, how you want it, sticky)
Feels so, feels so
(How you want it, how you want it)
Feels so, feels so damn
(How you want it, how you want it, sticky)
You know I'm down to make you smile
So I'll be around in the meanwhile
You know I'm down to make you smile
So I'll be around in the meanwhile
You know I'm down to make you smile
So I'll be around in the meanwhile
You know I'm down to make you smile
So I'll be around in the meanwhile
How you want it? Sticky
How you like it? Sticky
How you love it? Sticky
How you need it? Sticky
How you want it? Sticky
How you like it? Sticky
How you love it? Sticky
How you need it? In the meanwhile
You know I'm down to make you smile
You know I'm down to make you smile
You know I'm down to make you smile
You know I'm down to make you smile
So I'll be around in the meanwhile
