

# Just Ask Your Heart

Frankie Avalon

Just ask your heart who dreams about you  
Just ask your heart who's faithful and true  
Someone who cares and won't make you blue  
Just ask your heart who loves only you Then you will find your true love will be  
Someone who cares for you  
And wants to make you happy Then when your heart says he loves only you  
And when it says he won't make you blue  
Then ask your heart if your love is true  
Just as his heart loves only you Then you will find your true love will be  
Someone who cares for you  
And wants to make you happy Then when your heart says he loves only you  
And when it says he won't make you blue  
Then ask your heart if your love is true  
Just as his heart loves only you  
Just as his heart loves only you
