Tippy Toes

Big Yellow Wooly Trousers

No one feels the forest like you
Like you
No one tippy toes in her old man's shoes
The way you do
There's a feeling that I get
Whenever you come around
It's something I can't shake at all
It's something I can not shake at all
Like the day when I first met you
Seemed like the water was floating over me
It was fine I could breath the water was warm and soothing
The Portuguese boats were floating over me
The colors they used on the hulls were so fine
Now I know what it feels like to come in from the rain
Yea I know what it feels like to come in from the rain
Cause I felt what it feels like to hold on to so much pain
Yea I felt what it feels like I hold on to so much pain
Yes I did
Yes I did
Yes I did
