

Nightlight

Gulls

Oh whoa, leave your nightlight on
You don't have far to go
Oh whoa, leave your nightlight on
You don't have far to go
Out the door, down the hall
That is all
Down the hall, down the stairs
Pretty soon, you'll be there
Oh whoa, leave your nightlight on
You don't have far to go
Oh whoa, leave your nightlight on
You don't have far to go
Down the stairs
Take your time, don't be scared
You'll be fine, nothing's changed
In the dark, it's all the same
