Let's Get It In

Lloyd

I wish I had time to get to know you, but I don't
I wish I could be here in the moment, but I won't
So let's get it in, girl
So let's get it in, girl
Now, girl, to you it might feel like I'm in a rush
Give it to you how you want it 'til you feel you've had enough
Bottles of champagne have us all in this position
A grown-ass man, now I need an intervention
We could make tonight the night if you'll just listen
Start it out slow, yeah, then we could get to kissin'
'Cause all I need is just a touch of your love
A little bit
The spotlight on us ain't bright enough, baby
Thinkin' about you is driving me crazy
I do what I gotta do to get it, I admit it
The way you're movin', makin' me lose it, let's get to it
So take my hand, don't fight that feeling
It's alright to roll with me, we just chillin'
Your wildest dreams is 'bout to leave the building
Don't you wanna roll with me?
I wish I had time to get to know you, but I don't
I wish I could be here in the moment, but I won't
So let's get it in, girl
So let's get it in, girl
Hey, girl, I'm pickin' you, let's go
You gotta be the baddest in the club is all I know
Tell your friends I'll see you tomorrow

And tell them that young Lloyd done taught you the back-stroke
Now wait a minute, there's somethin' you must know
I'ma blow it out but in the morning you must go
'Cause as bad as you are, as fine as you are
I can't make you my girl
So take my hand, don't fight that feeling
It's alright to roll with me, we just chillin'
Your wildest dreams is 'bout to leave the building
Don't you wanna roll with me?
I wish I had time to get to know you, but I don't
I wish I could be here in the moment, but I won't

So let's get it in, girl
So let's get it in, girl
Hey, hey
I said let's get it in, girl
Let's get it in, let's get it in
Let's get it in, let's get it in
I wish I had time to get to know you, but I don't
I wish I could be here in the moment, but I won't
(I gotta go, baby)
So let's get it in, girl
So let's get it in, girl
Yeah, so what's up baby? What you tryin' to do?
I mean, take a chance for once in your life
You gotta do new things to get new results, baby
Yeah, Zone 4, Young Lloyd, 50 Cent, let's go
