Shit.

Block money, fast money shit.
I Remember standing in the club,
next to \$40 million, man.
Now I feel like shit,
I can do this shit too.
I can do this for the team,
I can do this for the firm to,
Keep playing.

Running in a touchdown. I know when it's game time,
fucking three bad bitches at the same time,
30 right? And he pulled me over to the game.
I'm going to hit me on the main line,
coming off the three point Michael Jordan hang time,
getting high, so I probably never would've came down.
We're gonna run the game like,
anybody flexed up what you got now,
I donâ€™t care whoâ€™s next up.
Killers on the outside, better for the thanks up,
all my n***a brian we ain't never seen the textbook.
Makes a little old school jazz to punk rock.
I'm gonna try to get that type of money Donald Trump got.
Was in the trap house use the punk rock.
I'm gonna say it like the game like a last minute jump shot,
was in the project for the jump,
anybody caught a bit and get stumped out,
Out into the place,
where they tried to get him back to his leg.
Time homey with the brick back,
then you gotta take the bridge back,
even to cut up then get shipped back,
and even give me a thumbs up like a trial in two weeks.
I'm just waiting to get back,
to the project got it within six at.
That's just told me you need to get back,
to you with the back and forth with the rib back.

Like a couple of quiet n***a, sit back 7 106\$, 100 kind of dog.

You know how big a click clack
took another bitch, you will never get this bitch backI

In the city where they try to risk that
Ya n***a in the with them all the time.
A couple of kilos with rich back, wow.

****Chorus****

Still borrowing money, no chemo,
Fishkill only you know them Nemo,
big face study looking like blue jeans.

I got it counting, Nino.

Even n****r shadow than Tino.

In the tree house with the part that Jack and the city like Nino

Trap was on that n***a whole team right around.

You got to talk in the car seat,

Now, open the garage for the Porscha.

You can hear the story from the source now,

we'll be walking over with the fourth now,

there's a couple of yards they visit we gonna,

I'm gonna check in with the fourth now.

I know one that everybody thought that,

they put on the north side,

in my hometown do you know if you see,

you catch a n***a sitting courtside,

blow start n***a to wait,

Ain't nobody probably with a downed ya
Keeping what you know what it is too late,
by the time you beat them they will ground yo,
still acting like a king.
Why these n***a looking like they scout you.
