Stuck On You

New Politics

Put a spell on me
Walk away from me
It's called irony
Got me hypnotized
I am paralyzed
I lost my sanityWhat did I do?
What did I do?
To get my mind stuck on you
What did I do?Sing a song for me
Love you endlessly
But I got a spell on me
And I feel lost and confused
I am crying out your name
But your touch ain't relieving its painWhat did I do?
What did I do?
To get my mind stuck on you
What did I do?You are my lover, are my friend
It don't matter what you think
You are my one and only desire
It's gonna stay like that till the end
Walk away from me it's called ironyWhat did I do?
What did I do?
To get my mind stuck on you
What did I do?
