Night's We Live For

Huey Mack

I don't know what the future holds
but it's gone before you know so I'm tall working every single night
so I can drawn all the loss training like I got the bronze
playing like I wanna go, I'ma do this till Im oh
when I'm say they think I'ma say
'cause I got nothing but a dreaming a team to my name
I ain't even closed to famous
I ain't nobody empouring but I'm loving where I met
I can do nothing but enjoying playing for the future
but I'm living for today
'cause it ain't how fast you get there it's along you plan to stay
and I never wanna leave man I want to shiff a rebel
only twenty years young and I plan on getting better
'cause I'ma tell it if I'ma make it
no one ever complacing it say that I'm chasing payments
while wearing than my patience and I don't care if you hate this
oh wish you never played this
I'ma take a bottle and spraying and celebrating
Get faded,
Hook:
'cause we gonna be here all night
we don't know about tomorrow but we gonna be alright, alright
f*ck em all 'cause we're living our lives,
tell the ancients bring a bottle let it put em on ice
we don't have a life but tonight we give our all
till the sun comes up do we have the alcohol
this gonna be the night we live for live for
this gonna be the night we live for live for
knew the thought only a year ago
I get this .rapping got some good friends who pack me
and some fans who did the same
so tonight let's raise a glass what have a toasting their name
they say I pitch one things so to me they feel right
'cause you don't know what it's like to have you fucking naming lies
and have all the people who hate you apologize for their words
and nice where I felt like shit where I quickly becoming blurs
and I love it 'cause never sweetest revenge
they said we on that end but now they're making the man
so tonight let's seat the.inside is feeling logical

we dodge every obstacle so baby let's celebrate with a shot or two
or three or four, or if everyone who help me break down every dog barrier
that they say in my way and know that we only made it
'cause we ain't care what they say so let's celebrate tonight
who last till the day
[Hook:]
Good times, great week, cold bear
life's great my friends are here
I'm gonna make it with the help of my pierce
the realest in this bitch best believe in our year
and I don't got them racks on racks on racks
but I got insolity my noble always have my bag
I'm only twenty and they know m across the map
and if I don't get it any further is cool up where I met
