

Hold It Down (feat. Tory Lanez)

Romeo Cash

[Refrain: Tory Lanez]

Aye, aye, aye, aye

Aye, aye, aye, aye, aye[Verse 1: Tory Lanez]

Shawty wanna ride with a west side nigga

Shawty wanna ride with a get right nigga

All of your friends say you got it for me

But I'm on the road, but with you is where I wanna be

Come get fly with a nigga

Roll a backwood, get high with a nigga

Sixteen sipping in my car but I'm all like (oh, oh, oh, oh, oh)

As long as you come by for the Winter

Make a young nigga wanna come vibe for the Winter

But I got it on the low though

All these tens on my niggas getting rolled up

Four fives saying hold up, woah

See I be on the road, doing twenty for a show

And these hoes wanna go

But I know that I gotta get back to the dough[Hook: Tory Lanez]

And it's all

All that I wanted was you to come back to the crib

You to come back to the crib, lay your ass back on this dick

All I wanted was for you to relax in the whip

You to come back to the crib, lay your ass back on this dick

Lay your ass back on this dick, yeah[Verse 2: Romeo Cash]

We in that Ferrari 'bout to skrrt off

Fuck you on the counter with your skirt off

I know that you love me, you tell me you do

And fuck what they say, it's all about you

Why you always worry about my timeline?

I don't love these bitches on my timeline

I know that you cared and I heard you the plug

So stop all the talking and pour me a cup

That pussy giving me lightning

She throw it at me like strikes nigga

She hold it down, she hold it down

And she know it's time when I come around[Hook: Tory Lanez]

And it's all

All that I wanted was you to come back to the crib

You to come back to the crib, lay your ass back on this dick

All I wanted was for you to relax in the whip
You to come back to the crib, lay your ass back on this dick
Lay your ass back on this dick, yeah[Bridge: Romeo Cash]
Fuck what they say
I need you forever
Don't ever leave
You're making me better
She hold it down she hold it down for me
She hold it down she hold it down for me
She hold it down she hold it down for me[Hook: Tory Lanez]
And it's all
All that I wanted was you to come back to the crib
You to come back to the crib, lay your ass back on this dick
All I wanted was for you to relax in the whip
You to come back to the crib, lay your ass back on this dick
Lay your ass back on this dick, yeah
