

# my eyes

## Noorda

Those high heels with that sun dress  
Turquoise heart hangin 'round your neck  
Red lips like wine, wanna drink 'em up  
And keep on drinkin' 'til you make me drunk  
Tied up here, wanna let it down  
And just let the rest fall to the ground  
You take beautiful to the max  
Can't help myself when you look like that  
Come a little closer, come a little closer  
Come a little closer, girl the way you look tonight  
My eyes are the only thing I don't wanna take off of you  
Come a little closer, come a little closer  
Come a little closer, love the way you look tonight  
My eyes are the only thing I don't wanna take off of you  
There's a million stars dancin in the sky  
A picture perfect moon so bright  
But I don't care, I'm lookin at you  
From where I stand you can beat the view

Come a little closer, come a little closer  
Come a little closer, girl the way you look tonight  
My eyes are the only thing I don't wanna take off of you  
Come a little closer, come a little closer  
Come a little closer, love the way you look tonight  
My eyes are the only thing I don't wanna take off of you  
My eyes have seen  
Some amazing things  
But girl, my eyes ain't seen  
Nothing quite like you, hey baby  
Come a little closer, come a little closer  
Come a little closer, girl the way you look tonight  
My eyes are the only thing I don't wanna take off of you  
Come a little closer, come a little closer  
Come a little closer, love the way you look tonight  
My eyes are the only thing I don't wanna take off of you  
Come a little closer, come a little closer  
Come a little closer, love the way you look tonight  
My eyes are the only thing I don't wanna take off of you
