

# Should I Go?

## Brandy

I'm standing on the edge of the industry  
Wondering if it's all that important to me  
To get my records back out there on the streets  
It ain't like I'm hurting or anything  
I'm to the point right now where money ain't an issue  
I can roll where I want to, do what I wanna do  
Tempted to leave it in my rear view  
Because this game ain't what I'm used to  
Should I go? Should I stay?  
I'm in control either way  
Should I go? Should I stay?  
I'm in control either way  
Should I go? Should I stay?  
I'm in control either way  
Should I go? Should I stay?  
I'm in control either way  
It used to be a few artists at a time  
Now, even the veterans wait in line  
Premature release of these albums online  
Makin' it hard for real entertainers to shine  
If you manage to defeat these odds against you  
Keep doin' your thing 'cause I'm not mad at you  
Just tryin' to figure out where I fit into  
All of this now, or if I do  
Should I go? Should I stay?  
I'm in control either way  
Should I go? Should I stay?  
I'm in control either way  
Should I go? Should I stay?  
I'm in control either way  
Should I go? Should I stay?  
I'm in control either way  
This industry was more like a different world  
When it was just me, Monica, and baby girl  
Aliyah, I never got to tell you how much you meant  
I wish you and me both was sittin' here workin' with Tim  
Just to be in the presence of people that you affected  
On a personal level Just makes me stop for a second  
You were such a blessing

You only answered one of my questions

Should I go? Should I stay?

I'm in control either way

Should I go? Should I stay?

I'm in control either way

Should I go? Should I stay?

I'm in control either way

Should I go? Should I stay?

I'm in control either way

Well, I gave it some time

And I made up my mind

Move over, this is my time

B-Rocka's back on the grind

Should I go? Should I stay?

I'm in control either way

Should I go? Should I stay?

I'm in control either way

Should I go? Should I stay?

I'm in control either way

Should I go? Should I stay?

I'm in control either way
