

# Ghost In The Mirror

Mallory Knox

There's a ghost in the mirror  
I feel it creeping into your head, claims another victim Is it me that you hear?  
And when the hatred rises up do you wish that I had been there?  
And there's a ghost in the mirror  
I feel it creeping up beneath me, holding onto my tongue Could it be any clearer?  
And if the devil ain't a beast he's a bully to his loved ones Full throttle full speed ahead  
And I move the earth around the sea for you  
In my head have a heart attack  
Without you, without you Full throttle full speed ahead  
And the world will turn around and it is  
Only you and I  
Just try, just try There's a ghost in the mirror  
And on the loneliest of nights you can feel it coming closer  
Should've known that the fear, is gonna bury you beneath all the love that you had held there And there's no  
love in this mirror  
I feel it beating like the past every second makes it clearer  
It's you and me and the mirror  
And I've let it go, it's like I've never ever been there Full throttle, full speed ahead  
And I'll move the earth around to save you  
In my head have a heart attack  
Without you, without you Full throttle, full speed ahead  
And the world will turn around  
And it is only you and I  
Just try, just try Hold your heavy head, hold your heavy head upright  
Look into the sky and we'll drive into the sunrise  
Hold your heavy head, hold your heavy head upright,  
Look into the sky and we'll ride into the sunrise Hold your heavy head, hold your heavy head  
Look into the sky and we'll drive into the sunrise  
Hold your heavy head, hold your heavy head  
Hold your heavy head, hold your heavy head upright Hold your heavy head, hold your heavy head  
Hold your heavy head, hold your heavy head upright Full throttle, full speed ahead  
And I'll move the earth around to save you  
In my head have a heart attack  
Without you, without you Full throttle, full speed ahead  
And the world will turn around  
And it is only you and I  
Just try, just try
