

# Runaway (feat. 3LAU) [Jengi Beats Remix]

## Bright Lights

Could've been lovers, could've been friends  
Could've been with you right down to the end  
But you're a runaway  
Saving my love for a rainy day  
I said we could've been lovers, could've been friends  
Could've been with you right down to the end  
But you're a runaway  
Saving my love for a rainy day  
I said we could've been lovers, could've been friends  
Could've been with you right down to the end  
But you're a runaway  
Saving my love for a rainy day  
I said we did everything, I prayed for you yeah  
I even stayed with you when your ship went down  
Only thing I wanted was for you to do the same  
Just hold me but it's too late nowCause we could've been lovers, could've been friends  
Could've been with you right down to the end  
But you're a runaway  
Saving my love for a rainy day  
I said we could've been lovers, could've been friends  
Could've been with you right down to the end  
But you're a runaway  
Saving my love for a rainy day  
I said we did everything I could, did more than I really should  
I was giving you my all  
Now you wanna hunt me down, asked me why I'm not around  
You know that it's not my fault  
I could've stayed with you, you, you  
I would've stayed with you, you, you  
I could've stayed with you, you, you  
I would've stayed with you, you, you
